Induction Procedures

This outlines the process for the formal induction of new staff and volunteers to the school and kindergarten. The objective of the formal induction programme is to provide an introduction to the school and kindergarten, and information and support that will enable new staff and volunteers to establish productive and positive working relationships as soon as possible.

The induction will cover the following:-

- A background to the principles of Steiner education
- The structure of the Proprietors, School, Kindergarten and Playgroup
- Health and Safety
- Personnel procedures and administration

It is the responsibility of the Board and Proprietors Trust to ensure that such a formal induction takes place for the Principal and Kindergarten Manager respectively. That responsibility is delegated to the Management Team for staff working with them.

As soon as practicable after the employee or volunteer takes up their duties they will meet with the person they report to in order to clarify duties and expectations, discuss goals and determine professional development needs. Agreed goals shall be listed in writing and signed by both parties. Both individuals will also complete the attached induction checklist and ensure that each section is signed off as completed. The completed checklist should be kept on the employee's personnel file.
