

Kindergarten

**Dunedin Rudolf Steiner**

Learning with head, heart and hands

### Toilet Supervision Procedure

#### **Inside**

- A teacher should be stationed in the doorway to supervise (and be available if required).
- The classroom door will stay open until the child returns

#### **Outside**

- Children are strongly encouraged to go to the toilet prior to outside time.
- A teacher should accompany a child inside (if there is no inside teacher) when they need to access the bathroom, and remain stationed in the doorway to the bathroom.
