

"It is a blessing if, in later years, one can look back with deep satisfaction at having been taught by an admired teacher. Such an education is of value for the whole of one's life."

RAFFLE PRIZE WINNERS

First prize: Eve Ritchie
Second prize: Gina Rocco
Third prize: Connolly family

Kia ora koutou, Dear Parents,

The Fair was a great success; well organised, especially the weather, though I would have preferred it to be a few degrees cooler.

One had the feeling of a village fair on the green, with bunting, balloons, barbeques and much more. I love the way people just turned up to do their rostered times. The café was as usual, beautiful, though it was almost too hot to eat! The music was superb! I especially liked when Alan played the viola under the trees in the kindergarten playground. It is almost a joy to see how children love the fair and to see old scholars and their families turn up and join in. Special thanks to the organisers of the event.

One thing that was perhaps a casualty of the heat was the plant sale. We still have lots of plants by the tools shed. Bring your gold coins and make an offer.

We also had some lovely clothes unsold at the fair, which are by the lower classroom. If you found a treasure to take home, please make a small donation towards the school fair. We have a jar for koha.

Izumi Uchida who is a member of the Board of Trustees and the parent of a former student has taken some beautiful photos. Please be sure to check them out by following the link below:

Class 7's Work

Eynn.

We drove over a small pile of gravel and dad stopped the car on a grassy bank. Out came the Sun-umbreller and my bass gutair, which I bought up to the forest. In the class-room, I found Tomas and Ocean practising a Jimmy Hendrix song for later on in the fair. I got out my bass gutair to show Tomas (who likes gutairs and hadn't seen mine yet) I plugged it into the amp and let Tomas have a play, he then realised he could plug his acoustic gutair into the amp so he started playing with it.

We randedown to the class-room with ice-cream, I ate 4 and he ate 5. Tia and Indio (Kids from Kindy) followed our lead and ate 9 each!

At the wet-face thingy I used 2 of my token segments to throw sponges at our principle then it was my turn and my little sisters (Hayley and Saoirse) hit me right in the face.

Luka (a girl from class 4) came running to say that I had won the raffle. I went to the raffle place and it turned out my grandma had won **FIRST PRIZE!**

I played poison with Tom and manu (because Seth and Ocean had gone skinny-dipping with some girls). Then we packed up and drove home.

Monday 5th November

As the sun rose I immediately realised that it was going to be a cracker of a day. Even at nine thirty I could feel the hot sun on my back as I walked to the car. When we arrived the temperature had risen at least 3 degrees hotter. I walked down the gravel road above the school, the sharp rocks stepping my bare feet. Finally I reached the foot of the grass bank where below lay a big field with a big white and blue tent standing to one side. I walked past the big tent hoping to find Ocean but instead I found his mum. She said that he was in the kindly with his little brother Indio.

When I found him ~~(he was)~~ in the kindly playing with his little brother Indio, they were playing with the swings. As I reached him we both ran to the one free swing. He got it first but I didn't care to much.

Near the end, Ocean Louis, the ~~who~~ ~~was~~ ~~in~~ ~~our~~ class last year and I went down to the yacht and went swimming just beside the long dodgy jetty.

Ocean and I had a very weird sensation over our whole body. It was like we were numb but we were warm at the same time.

All in all the fair went great, but we didn't make as much money as earlier fairs.
